Forecast for Friday 09 Apr 2021

Weather: Rain and sleet clearing soon after dawn to leave a mostly dry day with scattered cloud. From late afternoon, skies will clear from the north, leading to a cold, clear night.

Chance of cloud free mountain/hill tops above 600m: 30%, becoming 90% as the precipitation clears towards dawn.

Visibility: Moderate to poor initially, improving to excellent conditions when the rain and sleet clears. Cloud bases around 400-500m in the south at first, especially in west facing upslopes, lifting above the tops through the early morning.
